ORDERS IN COUNCIL DEFINING THE AUTHORITY AND POWERS OF THE BOARD

DECEMBER 18, 1897

His Excellency, by and with the advice of the Queen's Privy Council of Canada is pleased to create a "Geographic Board" to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office, and Marine and Fisheries, such member, being appointed by the Minister of the department; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as Secretary of the Board; and to authorize the Board to elect its Chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct, that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

NOTE:—Under the provisions of an Order in Council dated November 30, 1916, the Secretary has ceased to be a member of the Board.

Extract (December 14, 1899)

"That the Order in Council constituting the Board be amended by giving to the government of the Northwest Territories and to each Province the right to nominate one of their officials as a member of the Board who shall advise the Board with reference to names in his Province, provided that the several governments undertake to be guided by the decisions of the Board."

PLACE-NAMES OF MANITOBA

INTRODUCTION

"Lo! how all things fade and perish!
From the memory of the old men
Fade away the great traditions
The achievements of the warriors
The adventures of the hunters."

A pamphlet embodying the meaning and origin of the place-names of a province may be useful in many ways. In a severely practical manner it ensures their correct spelling. It is much more valuable as preserving those historical associations, which inspire the love of country and devotion to its service.

The place-names of Manitoba are particularly interesting, owing to the situation of the province as the gateway to the northwest. This has invested such names with the romance of discovery, exploration and settlement, and they reflect incidents and traditions which are part of the history of the Dominion and are of national interest.

The native Indian period is recalled by these names. The Indians have supplied the name of the province itself and the names of its principal natural features. The oldest native name is that of lake Winnipeg, which was known before the lake had even been seen by any white man.

The oldest British name, Nelson river, was given by Admiral Sir Thomas Button, who first raised the British flag in the province. This was performed at Port Nelson in the year 1612 during his search for a Northwest passage. The Admiral's home was at Cardiff in Wales, and he gave the name New Wales to the country of which he took possession, but that name is not now in use. The name Hudson bay appears on a map published in 1635, twenty years after the renowned navigator who discovered it had been cast adrift on its waters by his mutinous crew.

Such names as Hayes river, York factory, Gillam island and Churchill river, go back to the years near 1670, when the Hudson's Bay Company was formed and Ruperts Land, of which Manitoba now forms a part, was designated after the first Governor of the Company, Prince Rupert (1619-82). The name Ruperts Land is preserved as that of a provincial constituency.

Portage la Prairie and Fort Rouge recall the entry in the 1730's into the province of La Verendrye and his sons from lake Superior and Lake of the Woods. The name St. Martin islands, lake Winnipeg, also originated during the French period of activity. Few British names inland are met with for a number of years following the conquest of Canada in 1759. The map of the world in Cook's Third Voyage, published in 1784, shows little more than Cedar (Cedar) lake and Knee lake.

Such was the activity, however, of the British fur traders, both from Montreal and from Hudson bay, that British names are quite numerous on Arrow-smith's map of 1795 which shows, for example, Split lake, Playgreen lake, Burntwood river, Red river, Red Deer river and Swan river. Subsequent names also due to the fur traders, are Brandon and Fort Garry.

PLACE-NAMES OF MANITOBA

Place-names recall the cession by the Hudson's Bay Company to Thomas Douglas, Earl of Selkirk, of a large territory along the Red and Assiniboine rivers in 1811 and the colonizing efforts of "the most remarkable man in the annals of immigration in Canada." From the Red river, the colony which Selkirk planted was called the Red River Settlement; from the Assiniboine river, his domain received the name Assiniboia district. The province of Manitoba was created in 1870 on the eve of the transfer of Ruperts Land and the Northwest Territories to the Dominion. The boundaries of the province were enlarged to the present size in 1912 at the expense of Keewatin district of the Northwest Territories. The name Manitoba had been used, however, as a territorial designation two years before the creation of the province. In 1868 Thomas Spence had persuaded a few people to join him at Portage la Prairie and had organized a government to be altogether distinct from that of the Hudson's Bay Company. His name for it was the Republic of Manitoba (Begg, *History of the Northwest*, 1.362).

Settlement names of later origin peculiar to Manitoba are those given by Icelandic settlers commemorative of places in their native island and of their traditions, and those given by Mennonite settlers most of which repeat in the newer settlements the names of similar villages in Russia. The point and appropriateness of the new descriptive names likely belong more to the old villages than to the new. But the names all mean something, and many of them are rich in poetic meaning and feeling as well as in association. Surely one would rather live in a village so named than in one named by a barbaric combination of meaningless words.

Many of the Indian names now firmly established are due to officers of the Geological Survey, including Dr. R. Bell in the 1870's and Dr. J. B. Tyrrell and Dr. D. B. Dowling in the 1880's, who, in travelling through the province found that the English names in use were for the most part duplicates of other names used in the Northwest. They adopted the Indian names and by placing them on their maps have secured their permanence.

The publication is not a gazetteer of all the place-names in Manitoba, but is a selected list which embodies the principal names, and includes those of all cities, towns, villages and municipalities, all post offices, all railway stations and the names of many of the rivers and lakes as well as the names of fur-trading posts. For the purpose of the compilation the smaller places having both a railway station and a post office are called villages. An endeavour has been made to give the date of the first occurrence of names, as this sometimes furnishes a complete explanation. The adjacent railway stations, Baden, Powell and Mafeking, for example, were named in 1904, at the conclusion of the South African war, after General Baden Powell, the defender of Mafeking.

Many names of villages, post offices and railway stations are listed without explanation. The Board will appreciate any communication which may throw light on the meaning of these names. There may be errors in the information given in this publication and names that have interesting associations may have been omitted. If any such case should be noticed, the Board will be glad to have its attention called to it.

It should be noted that the manuscript for this publication was entirely prepared by the late Mr. R. Douglas, Secretary of the Geographic Board of Canada, whose death occurred before the proofs were received. The final proofing and checking were performed by Mr. J. N. Wallace of the staff of the Geodetic Survey, Department of the Interior.

SOURCES OF INFORMATION

The data in this publication are for the most part based on the records of the Geographic Board.

Additional information has been supplied by the railway companies, by postmasters and by various government officials, as well as by Mr. W. J. Healy, the member of the Board for the province of Manitoba, by His Grace Archbishop Matheson, by Dr. D. A. Stewart of Ninette, President of the Manitoba Historical Society, by Dr. C. N. Bell, Past President of that Society, by His Honor Judge Prud'homme of St. Boniface and by Prof. A. S. Morton of the University of Saskatchewan.

Figures denote the township in which the particular feature occurs or, if a stream, the township where it empties into a larger stream or lake, thus 3-4-1 indicates township 3, range 4, west of the first or principal meridian, and 12-8-E indicates township 12, range 8, east of the same meridian: a few cases occurring east of the second meridian east (which runs near Churchill) are in the form, 92-5-2nd E.

PLACE-NAMES OF MANITOBA

- Adelpha**; village, 2-19-1 (P.O. 1884).
- Agardsley**; P.O., 20-1-1 (1913); after H. Agard Gadd, postmaster.
- Agnew**; C.N.R. station, 8-26-1 (1905); after Hon. John Hume Agnew, then Provincial Treasurer; earlier Mouda.
- Aiken**; river, Split lake, Nelson river (1921); named by J. B. Tyrrell after Wm. Aiken, Hudson's Bay Co. trader, who was in charge at Split lake, 1894-5.
- Albert**; C.N.R. station 13-7-E (1925).
- Albert**; municipality, west of Bernice (1905); after H. R. H. Albert Edward, Prince of Wales, later Edward VII.
- Alcester**; G.N.R. station, 4-20-1; after Alcester, parish, Dorsetshire or Alcester, parish, Warwickshire, England.
- Alcrest**; C.N.R. station, St. Charles parish, (1928).
- Alexander**; village, 10-21-1 (C.P.R. 1882) and slough 9-22-1; after Alexander Speers, early settler.
- Alfretta**; C.N.R. station, 15-23-1 (1916); named by R. Van Norman, early settler, after a niece.
- Algar**; C.N.R. station, 9-24-1 (1908).
- Allegra**; P.O., 14-9-E (1918); after Laughing Allegra in Longfellow's poem *The Children's Hour*; name suggested as symbolic of the joy of life by the first teacher in Bonar Law school district, Mrs. Dora (Halstead) Campbell.
- Alloway**; C.P.R. station, 12-22-1; after Wm. F. Alloway, of the pioneer banking firm, Alloway & Champion; died at Winnipeg, February 2, 1930, aged 79.
- Almasippi**; P.O., 7-6-1 (1885); formerly the district was nearly all under water and tremendous crops of hay were gathered; the latter part of the name is presumably *sippi*, Cree Indian for "river."
- Alonsa**; village, 21-11-1 (C.N.R. 1922); after Alonsa Phillips, engineer, who surveyed the townsite.
- Alpha**; C.N.R. station, 12-7-1 (1904); the "first" siding on the Delta subdivision; alpha and delta are the first and fourth letters of the Greek alphabet: also commemorating the *Alpha*, one of two steamers which in 1880 plied on the Assiniboine river between Winnipeg and fort Ellice.
- Altamont**; village, 5-8-1 (1894); intended to mean "high mountain," "top of the Hill"; descriptive name; the post office name prior to 1894 was Alta.
- Altberghthal**; Mennonite village, 2-2-1; German for "old mountain vale."
- Altona**; village, 2-1-1 (C.P.R. 1894); there are four post offices of the name in the United States; Altona is a city in Germany; the meaning is "old fertile plain."
- Amanda**; C.N.R. station, 19-7-E (1918).
- Amaranth**; village, 18-10-1 (P.O. 1911); after Amaranth, Ontario, former home of Robert Johnson, early settler.

- Ameer**; C.P.R. station, 15-18-1 (1910); formerly East Summit.
- Amery**; H.B.R. station at miles 356.00 from The Pas (1928); after Rt. Hon. L. C. M. S. Amery, then Secretary of State for the Dominions.
- Ami island**, lake Winnipegosis, 46-27-1; named, 1889, by J. B. Tyrrell of the Geological Survey after his colleague, Dr. H. M. Ami.
- Amista asinee or Great Stone**; Hayes river "distant from the fort (York) 24 miles," where Anthony Hendry put up for the night, 1754; may be Twenty-mile island of some modern maps.
- Amphibian**; lake, 34-3-1 (1926); after type of aeroplane used in photographing the area.
- Anderson**; lake, 36-6-1 (1917); after H. J. Anderson, member of survey party of J. E. Jackson, D.L.S.
- Anderson**; lake 68-17-1 (1919) after a trapper.
- Anderson**; point, Washow bay, lake Winnipeg; named, 1899, by D. B. Dowling of the Geological Survey after his boatman.
- Angusville**; village; 20-26-1 (C.N.R. 1909); after John, Frank and William Angus, early settlers; P.O. name Snake Creek till 1910.
- Anola**; village, 10-6-E (C.N.R. 1923); invented name, earlier Richland, P.O.
- Antler**; river, Souris river, 2-27-1.
- Apeganau**; river, Burntwood river; Indian name meaning "hip bones."
- Apussigamasi**; lake, 79-2-1, Burntwood river; Apussigama lake on Arrowsmith map, 1796.
- Arbakka**; P.O., 1-8-E (1904); Icelandic name meaning "river bank."
- Arborg**; village, 22-2-E (1911) earlier Ardal; both names are Icelandic; arborg meaning "river town" and ardal "river dale."
- Archie**; municipality (1883); after Archibald McDonald, then Hudson's Bay Co., chief factor at fort Ellice; retired 1911; died 1915.
- Arden**; village, 15-14-1 (before 1883); after the residence in Yorkshire, England, of the father of F. W. Stobart, wholesale dry goods merchant, Winnipeg, who was prominent in the organisation of the Manitoba and Northwestern Ry.; the earlier name of the district was Beautiful Plains.
- Argue**; C.N.R. station; 5-23-1 (1904); after James Argue, then member of the Legislative Assembly for Avondale.
- Argyle**; village 14-1-E., and municipality; Argyle was a "new settlement" in 1874; presumably after Argyllshire (Argyleshire), Scotland.
- Arizona**; C.N.R. station, 10-12-E. (1905); after Arizona, U.S., so named, prior to the railway, humorously because of its remoteness from older settlements.
- Armit**; lake and river, 46-29-1; after David Armit, chief trader, Hudson's Bay Co., in charge of Manitoba House in 1889, when the lake and river were surveyed and named by J. B. Tyrrell.
- Armstrong**; municipality, west of lake Winnipeg (1917); after Hon. J. W. Armstrong, then Provincial Treasurer and Municipal Commissioner.
- Armstrong**; lake and river, Nelson river, 78-6-E.; after H. W. D. Armstrong, chief engineer, on construction of the Hudson Bay Railway, 1912.

- Arnaud**; village, 3-3-E. (C.P.R. 1877); misspelling for Aulneau; after Father Aulneau, S.J., missionary associated with La Verendrye, the famous French Canadian explorer of the present Manitoba, Saskatchewan and Dakota; the missionary with 20 others was killed by Sioux Indians on Massacre island, lake of the Woods, 8 June, 1736.
- Arnes**; C.P.R. village, 21-4-E.; Icelandic name meaning "river point"; settled by Icelanders in 1876 when Indians lived in huts on the river banks.
- Arnot**; H.B.R. station at mile 236.93 from The Pas (1928); after Wm. Arnot, 14 years in charge of railway water supply.
- Arona**; C.N.R. station, 12-7-1 (1908); after Arona, Penn.; heads a series of station names beginning with consecutive letters of the alphabet; compare Bloom, Caye, Deer, Exira, etc.
- Arrow**; river, Assiniboine river, 13-26-1; name on Arrowsmith map, 1821; probably so called because the Indians made arrows from the service berry trees on its banks.
- Arrow River**; village, 13-26-1.
- Artery**; lake, lat. 51° 20', Ontario boundary; because it drains into Bloodvein river.
- Arthur**; provincial constituency and municipality, south of Melita (1883); after H.R.H. Prince Arthur, Duke of Connaught.
- Ash House**; North West Co. trading post on Souris river, probably near or opposite the village of Hartney; Cones says the house was built in 1795 and abandoned in the spring of 1796; "from the plenty of those fine trees." D. Thompson.
- Asham**; point, lake Manitoba. 26-12-1; named by J. B. Tyrrell, 1889, after one of his canoeemen.
- Ashbury**; C.N.R. station, 10-22-1.
- Ashdown**; C.N.R. station (1904); after James H. Ashdown (1844-1924), native of London, England; reached Winnipeg, 1868; merchant and philanthropist; prisoner of Riel, 1870.
- Ashern**; village, 25-7-1 (C.N.R. 1911); after A. S. Hern, timekeeper when the railway was built.
- Ashkirk**; P.O., 27-9-1 (1918); after Ernest Ashley, postmaster.
- Ashville**; village 25-21-1 (P.O. 1901); after Isaac Ash, early settler from Ireland.
- Asippitti**; river, Burntwood river.
- Assapan**; lake, lat. 52° 26', Ontario boundary; also river, Poplar river; synonym for "flying squirrel" which is the local name.
- Assean**; river, Split lake, Asseyan R. on Arrowsmith map, 1796; Cree Indian name meaning "stony".
- Assiniboia**; provincial constituency and municipality, in the vicinity of Winnipeg; Assiniboia was the name given to the grant of 116,000 square miles made by the Hudson's Bay Co. to Lord Selkirk in 1811; Miles McDonnell was appointed "Governor of the District of Assiniboia" in June, 1811.
- Assiniboine**; river, Red river. The name commemorates the Assiniboine Indians called by La Verendrye, 1730 "Assiniboils" and by Governor Knight of York factory 1715 "Stone Indians". Assiniboine is the name of an Indian tribe and is derived from *assine* a stone and *bwan*, native name of the Sioux, hence Stony Sioux; name possibly given because they used heated

stones in cooking their food. Du Creux's map of 1660 shows Assinipoulaeus fl. connecting lake Nipigon with other lakes to the west. On Chateelain's map of 1719 lake of the Woods is called "lac des Assenipoils" and Pigeon river "R. des Assenipoils", while Chaussegros de Lery's map 1734 shows "lac Ouinipigon ou des Assinibouenes"; all these names betoken the presence of the Assinibouine Indians at or near these places. On Chaussegros de Lery's map, 1734, the Assinibouine river is called "rivière St. Charles". The first occurrence of the name "rivière des Assibiboilles" is in La Verendrye's journal for 1738-39; La Verendrye also refers to the forks of the Assinibouine and Red rivers as "la fourche des Assiliboiles". David Thompson uses the name Stone Indian river; the names Red or Upper Red river also occur in early maps and journals. Henry Kelsey in his journal 6 August, 1691, refers to a river "Mith . . .", which word may be *miskwa*, meaning red, and refer to the Assinibouine. In his life of Verendrye, St. Boniface, 1916, Prud'homme says: "If we accept the tradition prevailing among the Indians, the Assinibouine River was in former times called the Castor (Beaver) River. The first explorers who understood but imperfectly the Cree dialect mistook 'Amusqua Sipi', which means Beaver River, for 'Misqua Sipi', which means Red River. But the north arm of the Assinibouine nevertheless, kept its name of Beaver River, Amusqua, the name which it has kept till the present day. But, while the notion existing at that time was that the Red River emptied into the Assinibouine at Winnipeg, La Verendrye called that part of the Red known in that period as 'La Sublommère', extending from the city of Winnipeg to Lake Winnipeg, 'Misqua Sipi', or Red River. He changed the name of the Assinibouine from the old designation to the one it now bears, out of consideration for the Assinibouine nation through whose hunting grounds it flows."

Assinika; lake, lat. 52° 15', long. 95° 45', and river, Poplar river; Cree Indian for "stony".

Aswapiswanan; lake, lat. 54° 15', long. 95° 45'; Cree Indian name meaning "watching for swans".

Athapap; C.N.R. station, Flinflon subdivision (1929); corruption of Athapapuskow.

Athapapuskow; lake and river, 64-28-1; Cree Indian name meaning "rock on both sides".

Atik; C.N.R. station, Flinflon subdivision (1929); Cree Indian name for "caribou".

Atikameg; lake, northeast of The Pas. Cree Indian name meaning "whitefish".

Atim; lake, 40-13-1; Cree Indian name meaning "dog".

Atkinson; point, mouth of Winnipeg river (1926); after a family of the name.

Aubigny; P.O., 6-2-E. (1885).

Austin; village, 11-11-1; named by the Marquess of Lorne, Governor General on his western trip, 1881, when the track was being laid, after Sidney Austin, correspondent of the London *Graphic*; earlier known as Three Creeks.

Babcock; C.N.R. station, 6-8-1 (1916); after the president and manager of the Commercial Cement Co. which has a plant here.

Back; I.L.B.R. station at mile 434.9 from The Pas (1929); after Admiral Sir George Back (1796-1878), Arctic explorer.

- Bad Woods**; left bank of Assiniboine river, above Portage la Prairie. "A name given to a woody district about 30 miles long, by the buffalo hunters in 1852, who in consequence of the floods of that year could not pass to their crossing place at the Grand Rapids of the Assiniboine by the Plain Prairie Road. There were 400 carts in the band and the hunters were compelled to cut a road through the forest of small aspens which form the Bad Woods to enable them to reach the high Buffalo Prairies. The labour occupied them several days and will be long remembered in the settlements in consequence of the misery entailed on the children and women" (Hind); la Grande Trembliere of John Macdonell and the younger Henry.
- Baden**; C.N.R. station 44-26-1 (1904); after General Baden Powell, defender of Mafeking during the South African war; Powell and Mafeking are adjacent stations.
- Badger**; village, 3-11-E. (C.N.R. 1899); after the animal; a trapping country.
- Baffin**; C.N.R. station 19-10-1 (1922); presumably after Wm. Baffin, the famous Arctic explorer; died 1622.
- Bagot**; village, 11-9-1; named 1881 by the Marquess of Lorne, Governor General, after his aide de camp, Capt. the Hon. W. R. Bagot, Staffordshire Yeomanry, later Baron Bagot.
- Baie St. Paul**; parish; there was a post office of the name in 1871.
- Baldur**; village, 5-14-1 (1888); an Icelandic settlement; after Baldur, son of Odin, who typified the nobler qualities of human nature.
- Balmoral**; village, 15-2-E. (P.O. 1879); after Balmoral Castle, Royal residence, Aberdeenshire, Scotland.
- Balsam Bay**; village, 17-7-E. (P.O. 1887); from a thick grove of balsam trees.
- Banksian**; river, flowing across Ontario boundary into Island lake; the Banksian pine grows in the region.
- Bannerman**; village, 1-18-1 (1906); originally a G.N.R. station name; probably after Rt. Hon. Sir Henry Campbell-Bannerman (1836-1908), Prime Minister of Great Britain 1905-08.

Brandon House; the Hudson's Bay Company's post in the area centering at the mouth of the Souris River, which gave its name to the present city of Brandon had three sites; it was founded in the fall of 1793 by Donald (or Mad) McKay on the south bank of the Assiniboine river about two miles above the mouth of the Souris river. Later it was moved to the north bank and here it continued until about 1818, when on account of half-breed raids during the "Pemmican War" it was moved to the south side of the river and so near that the two sites are actually in the same quarter-section, though with the river between them. After the amalgamation of the Hudson's Bay Co. with the North West Co. in 1821 the earlier site was again occupied until 1824, when it was finally abandoned; in October 1828 a third site was chosen about 12 miles up the river in what is now the N.E. $\frac{1}{4}$, section 29 of 9-17-1, as the crow flies about ten miles below the present city; the fort then built by Francis Heron was occupied until 1832 when it was finally abandoned. (D. A. Stewart.) Brandon House was probably named after the 8th Duke of Hamilton (1756-99), the head of the house of Douglas, who in 1782 took his seat in the House of Lords as Duke of Brandon, Suffolk, England. Everything goes to show that the family held largely of Hudson's Bay Co. stock before Thos. Douglas, fifth Earl of Selkirk, came into his inheritance in 1799 and that he was led to take steps to visit Ruperts Land from this circumstance.

- Fort Alexander;** village and Chippewa Indian reserve, Winnipeg river, near its entrance to lake Winnipeg. In a letter to Roderick Mackenzie, from the region of Cumberland House, dated 1 September, 1787, Sir Alex. Mackenzie says, "I wrote you a letter at the entrance of lake Winnipeg" (Masson, Vol. I, 19.) Masson says Toussaint Lesieur established a post here in 1792; Alex. Henry the younger between 1800 and 1808 calls this post Bas de la Rivière and describes it as "one of the most important posts of the North West Co." D. Thompson, 1798, calls the post Winnipeg House; *refer to Fort Maurepas.*
- Fort Assiniboine;** *refer to Fort la Souris.*
- Fort Bourbon;** built about 1742 by one of Verendrye's sons on an island at the west side of Cedar lake, called by the French Bourbon lake after the reigning dynasty of France. The post is also represented as having been near the mouth of Red Deer river (which is a stream, so named from early years, flowing into the north end of lake Winnipegosis.) This may have been a second site, but it may be that the name "Red Deer river" was applied, in very early years, to the Saskatchewan river. In such case, both descriptions would refer to one site, namely, on Cedar lake near the mouth of Saskatchewan (otherwise called Red Deer) river. Thomas Curry made his head-quarters here during winter 1771-72.
- Fort Dauphin;** trading post, the name given to several forts of several companies. The first was built in 1742 by Pierre La Verendrye on Mossy river and named after the then Dauphin of France; Peter Pond who appears to have been the first to occupy a fort of this name under the British regime gives the location of the post occupied by him in 1775 as at the northwest angle of lake Dauphin. Another post, likely a Northwest Company post, was at the mouth of Valley river; the remains of the post are still to be seen.
- Fort Douglas;** first Hudson's Bay Co. trading post in Winnipeg area built 1812 on Red river at the foot of present Robert and George avenues; the name is that of Lord Selkirk's family; the fort was not only utilized for the

stores of the company, but was the official headquarters and residence of the governor of the Selkirk colony after the arrival of the settlers in 1812." (C. N. Bell *The Old Forts of Winnipeg*, 1927.)

Fort Dufferin; Hudson's Bay Co. post established, 1872, on the site of present Emerson, west bank of Red river; after Lord Dufferin, Governor General of Canada, 1872-78.

Fort Ellice; Hudson's Bay Co. trading post, 16-28-1; established 1831; abandoned 1889; replaced several earlier posts of the Hudson's Bay Co. and the North West Co., including the old Hudson's Bay Co. post Beaver Creek; "built of wood and surrounded by pickets" (Palliser 15 August, 1857); after Rt. Hon. Edward Ellice (1781-1863), Deputy Governor, Hudson's Bay Co., 1858-63, familiarly known as Bear Ellice, from his close connection with the fur trade; he came to Canada in 1803 to engage in the fur trade and it was on his suggestion in 1820 the union was effected.

Fort Épinette; *refer to* Pine fort.

Fort Éspérance; North West Co. trading post, situated on Qu'Appelle river, about twenty miles from the mouth; built by Robert Grant about 1787; occupied for many years (Tyrrell, Thompson, 206.).

Fort Frobisher; trading post, Red river; John Macdonell says Joseph Frobisher passed a winter at this post whose situation he gives as "2 or 3 leagues above Netley creek."

Fort Garry; Hudson's Bay Co. trading post; name applied to Fort Gibraltar (*q.v.*) after the union of the Hudson's Bay Co. and the North West Co. in 1821; the fort was the headquarters of the company until 1835, when a second Fort Garry, the rear gateway of which now stands in Fort Garry park, Main street, Winnipeg was built; this fort was demolished in 1882; the original fort was demolished in 1852.

Fort Garry (Lower); Hudson's Bay Co. trading post on the west bank of Red river below St. Andrews rapids; the building of this stone walled fort with loopholes and bastions was commenced in 1831 and was completed in 1839; the fort was built as the result of the following resolution which was passed at the council meeting of the Hudson's Bay Company's northern department of Ruperts Land held at York factory in 1830:—

"The Establishment of Fort Garry being in a very dilapidated state—its situation not sufficiently central—most exposed to the Spring Floods—and very inconvenient in regard to the navigation of the River, and in other points of view, it is Resolved—That a new Establishment to bear the same name be formed on a site to be selected near the lower end of the Rapids—for which purpose tradesmen be employed, or the work done by contract as may be found most expedient, and, as Stones and Lime are on the spot those materials to be used instead of timber, being cheaper and more durable."

The first Indian treaty in the west between the Canadian government and the Chippewa and Swampy Cree tribes was concluded at Lower Fort Garry on 3 August, 1871; the fort has been preserved by the Hudson's Bay Co. as a relic of the old Red River days; Upper and Lower Fort Garry were named after Nicholas Garry, Deputy Governor of the Hudson's Bay Co., 1822-35, who visited Red River settlement in 1821.

Fort Garry; village and municipality; P.O. name St. Vital till 1917.

Fort Gibraltar; North West Co. trading post on the north side of the Assini-

boine river at its junction with Red river, built 1807 by John McDonald of Garth; "I established a fort at the junction of the Red and Assiniboine rivers and called it Gibraltar, though there was not a rock or stone within three miles"; after the rock of Gibraltar; destroyed by Governor Semple, Hudson's Bay Co., 1816, and rebuilt 1816 or 1817.

Fort la Reine; trading post, established at or near Portage la Prairie by La Verendrye 1738; after Marie Leezinska, Queen Consort of Louis XV.

Fort la Souris; name applied to various trading posts established on Assiniboine river, about two miles above the mouth of Souris river; the North West Company post, also called Fort Assiniboine, was established in 1793 on the left bank of Assiniboine river, and that of the N.Y. Company some years later on the opposite side, beside the Hudson Bay Company post Brandon House (q.v.). *Refer to Souris, river.*

Fort Maurepas; trading post established at the mouth of Red river by La Jemeraye for La Verendrye in 1731; Verendrye to Beauharnois 7 June, 1735 - "J'ai etabli un fort au lac Ouympigon a cinq lieues en remontant dans la riviere rouge"; post removed by 1710 to the right bank of Winnipeg river, near lake Winnipeg; the site was a short distance below present Fort Alexander, but on the opposite bank of the river; cellars were found here by a half breed of Fort Alexander, near the bank of Winnipeg river where a big coulee fell into that river; after Phelipeaux, Comte de Maurepas, French Minister of Marine and Colonies, 1723-49.

Fort Poskoyac; trading post established by the sons of La Verendrye on the Saskatchewan river at the present The Pas in 1748; descriptive Cree Indian name meaning "wooded narrows."

Fort Rouge; sub P.O. Winnipeg; after a post built in 1738 on the north bank of the Assiniboine where it joins the Red River and called on later maps Fort Rouge; in the present Fort Rouge district of Winnipeg; the post was built by D'Amour de Louviere who was in charge of Fort Maurepas when La Verendrye reached that fort in 1738; he gave instructions to de Louviere to build a post at the confluence of the Assiniboine and Red rivers which he did in October, 1738, about the same time that La Verendrye built fort La Reine; fort Rouge was never an important post, being only a halfway house between Fort la Reine and Fort Maurepas (Prud'homme); Prud'homme states the fort was so called because the door of it was painted red.

Fort Whyte; village, 9-2-E; Tuxedo P.O. changed to Fort Whyte 1925; after Sir Wm. Whyte, Vice-President C.P.R.; born Charleston, Fifeshire, Scotland, 1843; sometime General Superintendent C.P.R. western division with headquarters at Winnipeg; the 'fort' is a humorous reference to a dispute about the crossing of the C.P.R. tracks by the Red River Valley Railway at this point, the militia being called out and camped here a few days.

Fortier; village, 11-4-1 (P.O. 1887); after Rev. Jos. A. P. Fortier, postmaster.

Fortress; C.P.R. station, 1925; formerly Fort Whyte (q.v.).

Fox; lake and river. Hayes river, 69-21-E; translation of the Cree Indian name *makese*. T.

M. Muckle in a letter from Clandeboye, 19 November, 1891, wrote:—"The river was not given the name because of a massacre which took place there, but for the reason that when the Saulteux first came to the mouth of the creek they found abandoned tents along the bank, also on going up stream they again found abandoned tents; at these tents they found human remains, both inside and out; this is the reason it got the name Ne-poo-win; they discovered one boy alive who told them that his people had all died of small-pox; this boy, Pockwa-now was known to the Selkirk Settlers, which would make the date not more than one hundred and twenty years ago. The Saulteux then took possession of the land without opposition, after killing or adopting the few Mandaus who lived along the banks of the Red River, but did not venture into the prairie; a short time after the Assiniboins (*assim* a stone and *pown*, a Sioux) came back and found the Saulteux in possession; they smoked the pipe of peace and made an offensive and defensive alliance against their enemies, which has lasted up to the present day, the Saulteux to have the woods and rivers for the moose, bear, beaver and fish in them and the Assiniboine the prairies with the buffalo".

- Northwest Angle;** inlet, lake of the Woods, Ontario boundary; also Indian reserve for Northwest Angle band. At the head of the inlet is the point accepted by Great Britain and the United States as "the most northwestern point" of the lake of the Woods of the treaty of Versailles, 3 September, 1783, indicated and definitely fixed by the joint commission under the Treaty of Ghent, 24 December, 1814, the observations being made in 1824 and 1825 by I. L. Tiarks, astronomer and David Thompson, surveyor, who were employed by the British government. In 1824 Thompson selected the point as a possible "Northwest corner of the Lake of the Woods", but owing to the swampy nature of the ground at this point no monument could be erected at the point itself. Thompson erected a large monument of oak and aspen logs on firm ground in the vicinity and connected it with the most northwestern point by a traverse survey. In 1872 the site of this monument was found by officers of the International Boundary Commission of 1872-76 only after Indians of the vicinity pointed it out, for the monument had almost entirely decayed. From it the most northwestern point was reestablished. The origin of the term "angle" can only be surmised. The first use of the term Northwest Angle known to the Geographic Board is in letters dated 29 July, 1869 (Sess. paper No. 12, 1870, p. 14).
- Northwest Angle River;** Indian reserve for Northwest Angle band.
- Norway House;** Hudson's Bay Co. trading post, Playgreen lake; also Swampy Cree Indian reserve; name originally applied to a house built by Norwegians on Mossy peninsula at the outlet of lake Winnipeg. In 1814 Governor Thomas of the Hudson's Bay Co. stationed at York factory was informed that Norwegian axemen were being sent out to construct a road between lake Winnipeg and Hudson Bay in the belief that more goods could be carried by horse and sleigh in the winter than by boat in the summer. The

Norwegians reached York factory, Hudson Bay in the summer of 1814. Just below Playgreen lake about 25 miles from lake Winnipeg, Gunisao or Jack river joins Nelson river from the east. The Hudson's Bay Company had a post* here in 1815 to which under pressure of the forces of the North West Company, some sixty Red River settlers led by Archibald McDonald retreated temporarily in June of that year. They broke their journey, however, at Mossy peninsula. The entry in McDonald's journal for 10 July, reads: "Got to the North Wagen's place in the morning". The settlers went to shore here with their supplies. Shortly after this date, the Hudson's Bay Company's post at Jack river was moved to the peninsula and, because situated at Norway point, became known as Norway House, a name which it retained when it again moved to the old and present position, some ten years later. When the settlers, reinforced in number, returned to Red River with Colin Robertson in the autumn of 1815, the Norwegians went with them to harvest the crops. The road project in connection with which they were brought out was found to be impracticable and was abandoned.

Norwood Grove; sub-P.O. St. Boniface (1903).

- Saskatchewan;** river entering lake Winnipeg, 48-13-1; from the Cree Indian word *kisiskatchewan*, meaning "swift current". The name is somewhat strange as the current of the river, although it is strong, is not so great as to call for such particular note. In early years the name was applied to Nelson river, and possibly to Churchill river. Its application to the river now so called is of later date and apparently originated by extending the name upstream, on the basis that Nelson and Saskatchewan rivers formed one river. Thompson, on his map, 1813, applies the single name Saskatchewan along the whole course of the two rivers. The French used the name Bourbon as far upstream as Cedar lake at least. In this they were extending the name given by Radisson in 1682 to the estuary on Hudson bay now known as Port Nelson. Jérémié, writing between 1700 and 1720, assigns Quisisquatchiouen (the earliest published record of any form of this name) to a river which he states joins Bourbon (Nelson) river from the northwest at Split lake, coming from some distant great lake; Buache's map, 1754, which purports to interpret Jérémié, indicates that this was a confused reference to the route by Burntwood river towards Reindeer and Athabaska lakes, the upper part of Churchill river being supposed to drain southeast; Jérémié seems to apply the name Deer river to modern Saskatchewan above Cedar lake. The earliest name certainly applied to the river was Pascoyne or Pasquia. In 1750 St. Pierre uses "rivière du Poskoya" for the river near The Pas; Hendry, 1754, on his journey inland from York Fort, calls it Keiskatchewan; Cocking, 1772, applies the same name, in a varied form, to Nelson river where he crossed it a hundred miles below lake Winnipeg, and also to the modern Saskatchewan near The Pas; Henry, the elder, 1775, when he enters the river at its mouth in lake

Winnipeg, calls it "rivière de Bourbon, Pasquayah or Saskatchewan," and higher up he calls it Bourbon, with no alternative; in the next year, 1776, he refers to it as "Pasquayah, Kejeechewan or Saskatchewan"; Pond's map, 1785, has it marked "this river is called by the Indians Pasquia", Mackenzie's map, 1793-1801, has Shaskasiwin and his Journals Saskatchewan; Harmon, 1805, has Sisiskatehewin; Henry, the younger, 1808, entering the river at Grand Rapids uses the expression "Saskatchewan or, as the French call it, rivière du Pas"; in subsequent years the river, from its source to lake Winnipeg, is uniformly called Saskatchewan, this spelling being finally fixed by Thompson's map, 1813.

The Halfway; P.O., 27-1-1 (1915); because "half way" across Peguis Indian reserve.

The Pas; town, 56-27-1; incorporated as The Pas, 15 May, 1912. Conflicting views have been enunciated as to whether the name is of Indian or French origin. Both explanations are derived from the fact that the place is the natural crossing point of the Saskatchewan river. The supporters of the former view contend that Pas is a proper name, an abbreviation of the Cree Indian name of a former Indian village called Basquea by Anthony Hendry, 1755, Basquia by Matthew Cocking, 1772, Pasquayah by Alexander Henry the elder 1775 and variously spelled by others Pascoiac, Wupaskwayou, etc.; the longer word "*Opasquaaw*" means "narrows between wooded banks", and the shorter word "*apas*" "*opaw*" "*woopow*" "*wupow*", etc., means "narrows", as in Manitoba, a combination of *Manito* and *Opaw* meaning "The narrows of the spirit" and *Obabika* meaning "The narrows between rocks". The supporters of the opposing view contend that Pas is the French common noun meaning "gap", "strait", "passage" or "crossing", frequently used by the French as a geographic name and of which a well known instance is Le Pas de Calais, the French name of the strait of Dover in the English channel. They ask, if Pas is the contraction of an Indian name, why is the pronunciation French. The first occurrences in an English narrative of the word Pas are in the younger Henry's Account of the Saskatchewan, Brigade in 1808. Henry says: "At eleven o'clock we entered the main channel of the Saskatchewan and soon after reached The Pas. This place may be called the first dry land we have found since we left Lac Bourbon. The little river of Montagne du Pas comes in here on the S. Formerly the French had an establishment on this spot, some traces of which are still to be seen." The earliest occurrence of the name in a French narrative is in an itinerary supplied by Joseph Derouen, a voyageur about whom nothing is known. The itinerary is preserved in the Archives of the Collège Ste. Marie, Montreal, and is one of a number collected by Father Pierre Pothier, S.J., who died at Sandwich, Ontario, on 16 July, 1781. The date

*Prof. Morton of Saskatoon has suggested that Pas is derived from the Sioux Indian word for red deer given by the younger Henry as *opah*, which would explain the application of the name Red Deer to the Saskatchewan river by Jérémie, 1720. The Saskatchewan river, above its Forks, was known to the Cree Indians as Wawaskosew sippi, meaning Red Deer River. Judge Prud'homme has suggested that the place was named by the sons of La Verendrye in honour of their mother, who was a daughter of the Sieur du Pas.

of DeRouen's notes is illegible, but may be 1760. DeRouen states that "at forty leagues distance" up the Saskatchewan river from Cedar lake is the "fort du Pas". Evidently the place has had two names, an Indian one and a French one with similar meanings, descriptive of the Saskatchewan river in the vicinity.

Thibaudeau; H.B.R. station at mile 392.1 from The Pas (1928); after W. Thibaudeau, C.E., who made a reconnaissance survey for the Dominion Government in connection with the railway route to Churchill about 1900.

Woods (lake of the); lake, Ontario boundary. The first white man to reach the lake was Jacques de Noyon of Three Rivers, Quebec, who ascended Kaministiquia river from lake Superior in 1688 and reached lake of the Woods in the following spring. Noyon calls it "lac aux Iles" and also "lac des Assiniboiles" and "lac des Gens de la Pierre-Noire". This information is contained in a memoir by the Intendant Begon, 12 November, 1716. The name "lac des Bois" French for "lake of the Woods", is applied to the lake in a report by la Verendrye annexed to a letter by Beauharnois of 10 October, 1730. The significance of this name is unknown. Buache's map of 1754 names the lake "L. Minittie ou des Bois". Minittie is the Indian word for "islands" in French, *iles*. The lake of the Woods is a water system with four divisions. Bigsby (*Shoe and Canoe*, 1850, II, 290) gives the

Indian name of the northern division as "Kaminitik" or islands, and of the southern portion as "Parpequa wungar" (a simpler spelling is Pekwaonga) or lake of the Sand Hills, from the sand hills near the mouth of Rainy river; he adds that the eastern division is known to the Indians as Whitefish lake. G. M. Dawson states that the northwest division, where the water is clear and deep was known as Clearwater lake—now Clearwater bay and that "lac Plat" or shallow lake, the great rice ground of the Indians west of Clear water bay may be counted another division.
